ABOUT US

Directors

Rajkumar Jain (L), Neel Kamal Jain

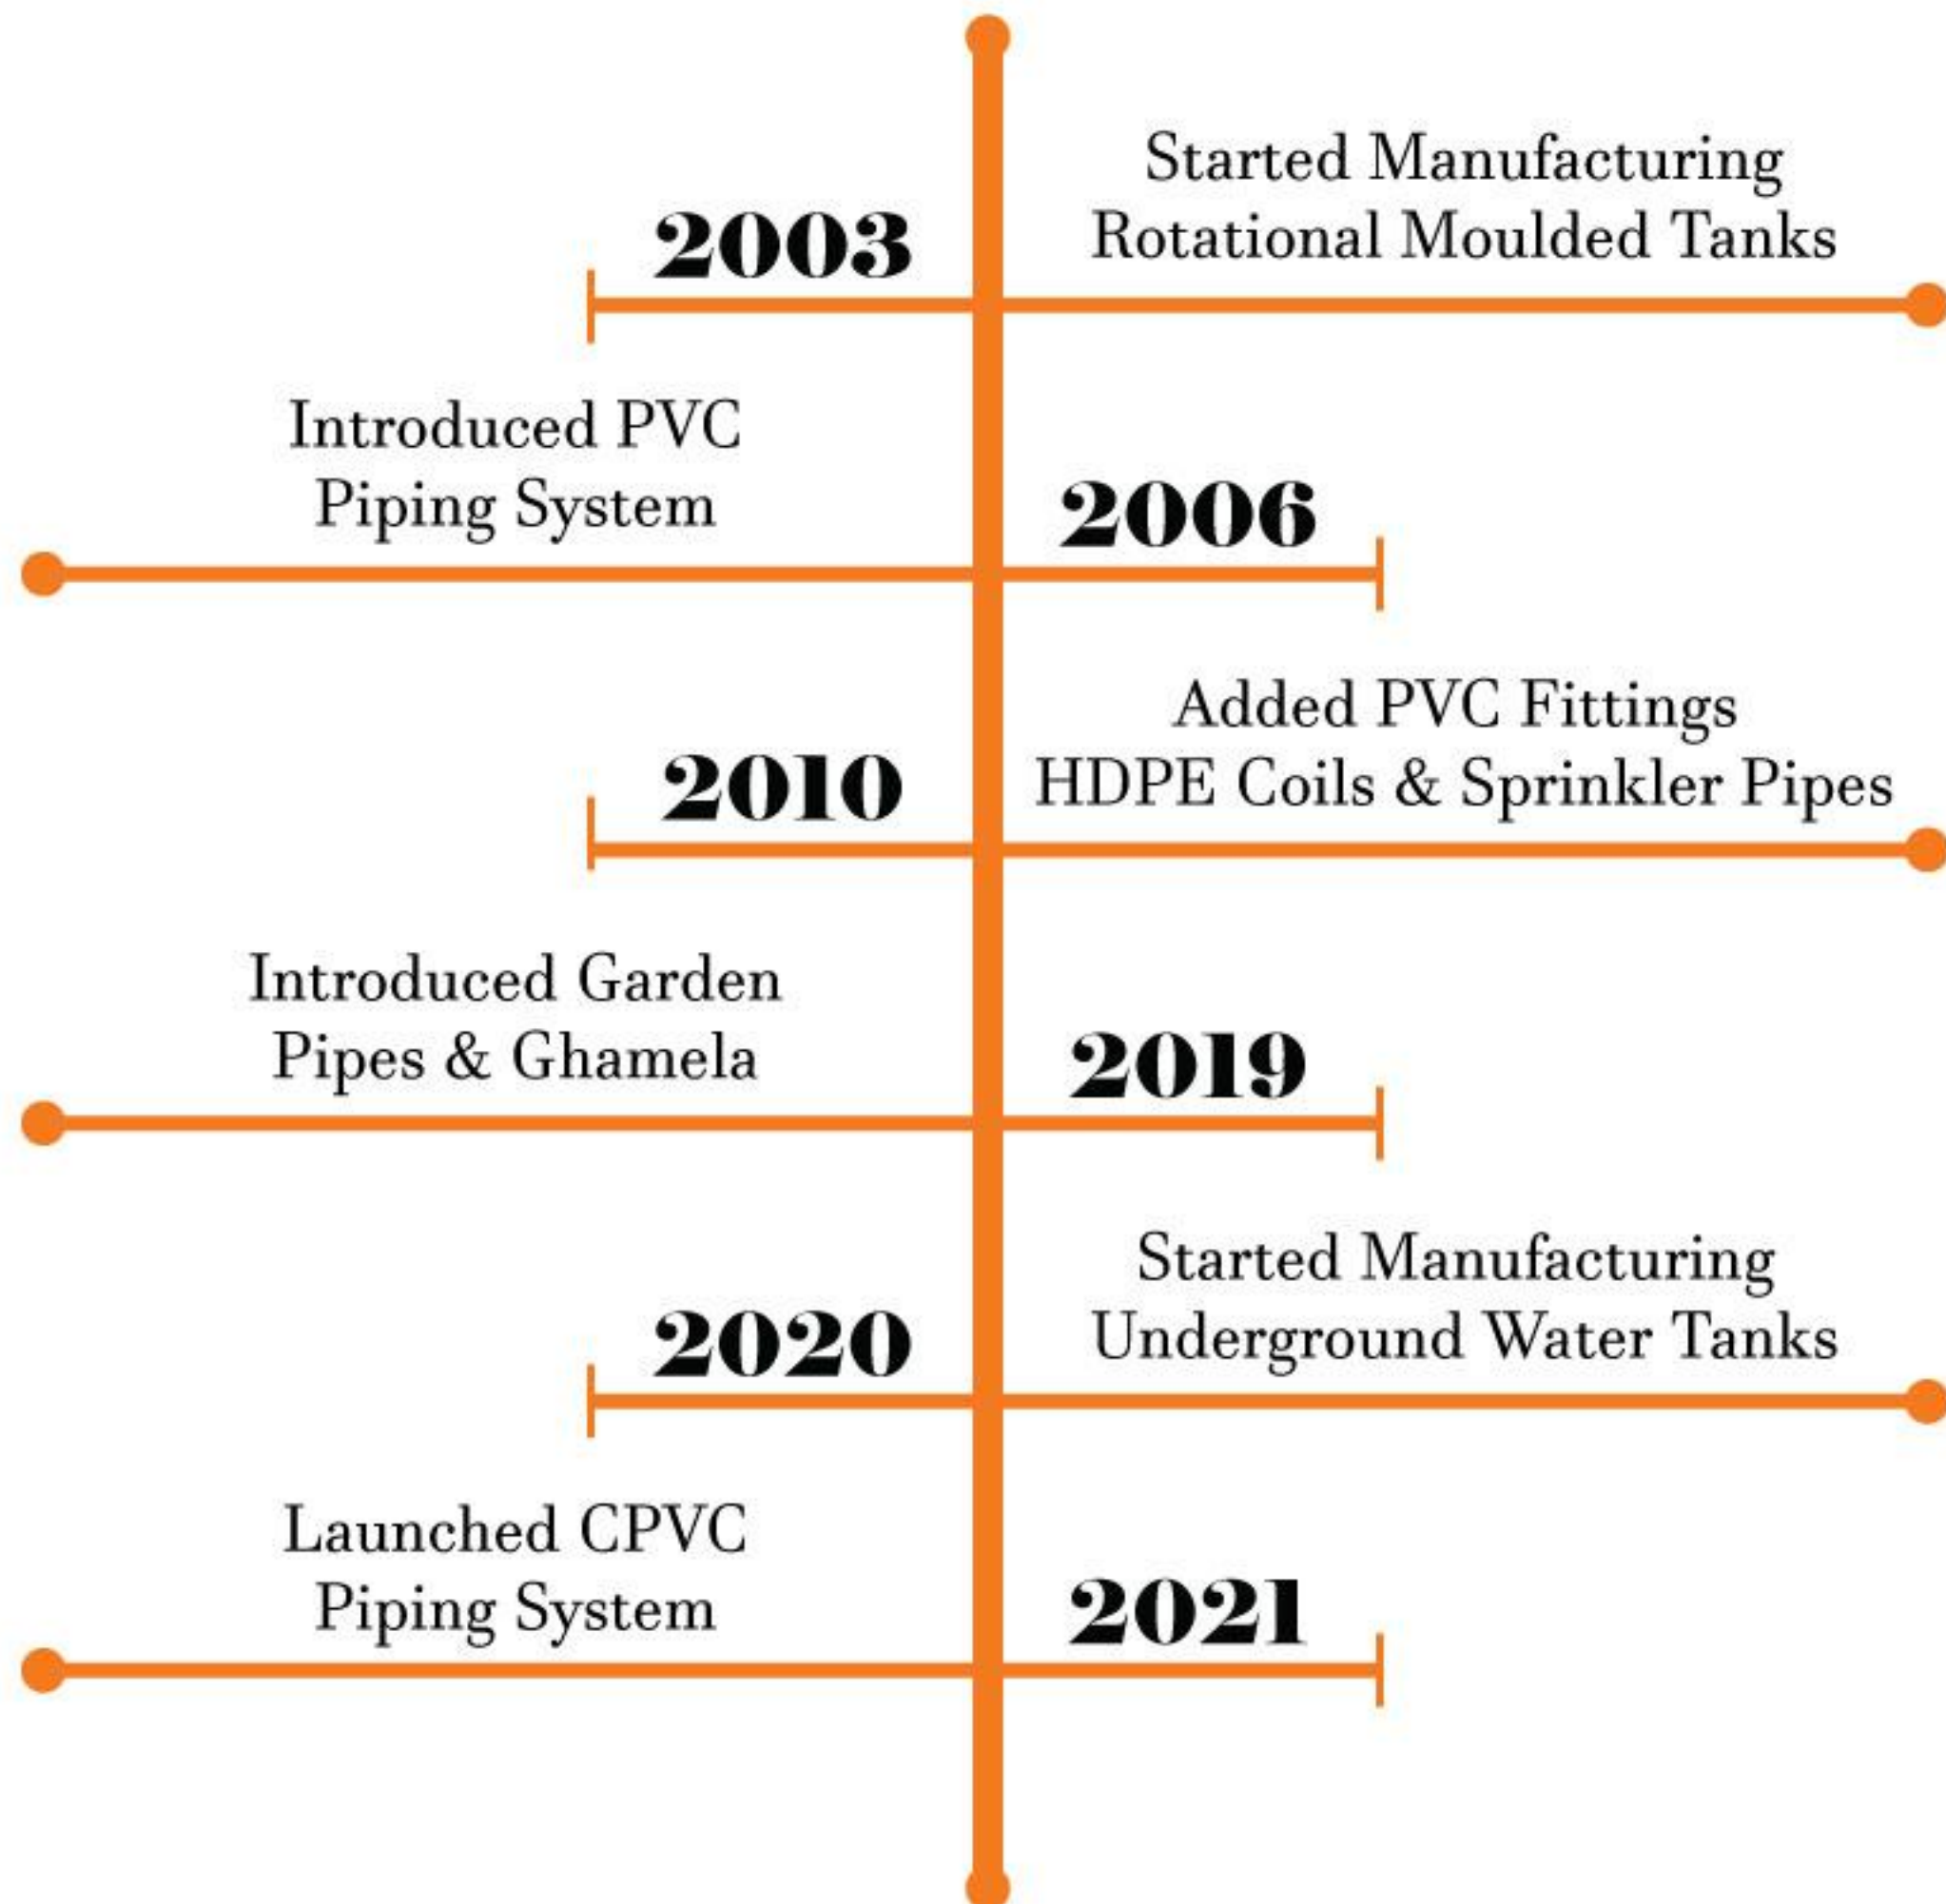

Since 2003, Nircon Polymers Pvt. Ltd. developed redefined & innovated a wide range of home, agriculture & industrial plastic products, primarily in the business of manufacturing water storage tanks & piping systems. Relentlessly innovating to create better products, tackle practical issues with installation, & improve user experience, Nircon has not just kept up with the times but set new benchmarks for others to follow.

Nircon established its framework with the manufacturing variety of Rotational Moulded Water Storage Tanks and gradually entered into the piping systems market with a variety of PVC, CPVC & Piping Systems for plumbing, drainage, agricultural & industrial use.

With a strong emphasis on world-class quality standards using cutting-edge technology & continuous research & development to innovate new products, Nircon has emerged as one of the leading players in the industry. Over the years, the group has developed a wide variety of products with an exhaustive range of sizes and specifications.

At Nircon, we understand your need for Quality. That is why we adhere to the most stringent quality norms. While Nircon is an ISO 9001:2015 certified company, its ISI certified products offer the highest standards of quality and great value for money.

GROWTH & INNOVATION

VISION

To be the most valued and connected company to our customers, partners, co-workers & community & create impact, growth & opportunity for everyone.

MISSION

To constantly improve, build & provide plastic-based plumbing, drainage and water storage solutions to the society for better quality of life.

VALUES

Provide positive solutions to our customers by giving high-quality products & services.

MORALS

Team Work | Integrity | Excellence | Relationship | Sustainable

OUR PRODUCT

Nircon Water Storage Tanks

A wide range of Black, White as well as coloured LLDPE Water Storage Tanks with UV from 200 Ltrs to 5000 Ltrs with 1 to 6 layers.

Underground Tank

A sturdy single moulded piece built to withstand underground pressure. Specially designed for Rain Water Harvesting & Water Storage.

Drums & Loft Tanks

Highly durable and versatile household drums and loft tanks are available in White and Black colour for indoor & outdoor uses. Specially Designed for Hotel, Offices, Shopping Complex, etc

SWR Pipes & Fittings

SWR pipes and fittings are used for non-pressure plumbing applications, like transportation of soil, waste & rainwater, non-pressure industrial, residential & commercial drainage applications, & waste discharge systems

CPVC Pipes & Fittings

CPVC Pipe can withstand higher temperatures and is more flexible and durable. These pipes are used for both hot & cold water passage & other industrial liquids.

Agriculture Pipes & Fittings

Agricultural Pipes are made from Virgin, Food Grade Material, they are safe for conducting potable water and other edible fluids. When exposed to chemicals such as pesticides or fertilizers it will not degrade.

Conduit Pipes & Bends

Conduit Pipes are used in electrical systems as a housing for electrical wires or cables. Due to its smooth interior finish it is a great choice for concealed & visible wires.

HDPE Coils & Sprinkler Pipes

Low maintenance with high durability and Quality pipes, allow efficient, hassle-free sprinkler set ups. HDPE Coil Pipes are made of high density Poly Ethylene Polymers. They are available in 20mm to 100mm sizes in pressure ratings of PN-2.5, PN-4.0, PN-6, PN-8 and PN-10.

Garden Pipes

Garden Pipe is widely used in for water supply in gardening, steel mills engineering works & in irrigation projects. With great quality we also provide several attractive colours at budget-friendly prices.

Ghamela

Nircon Ghamela are long lasting & good quality plastic containers for carrying materials, paints, inks, chemicals, lubricants, adhesives, coatings, construction materials, building products, and other applications.

Dustbins

A step towards Swachh Bharat Abhiyan. Nircon Dustbin, are light weight, easy to carry & maintain, comes in colors & sizes which at affordable prices.

OUR BELIEF

विश्वास का एक ही नाम

Quality is our priority. You can be assured that every Nircon product that reaches you has undergone exhaustive quality analysis at every step of production, to make sure that you receive the same world-class quality each time.

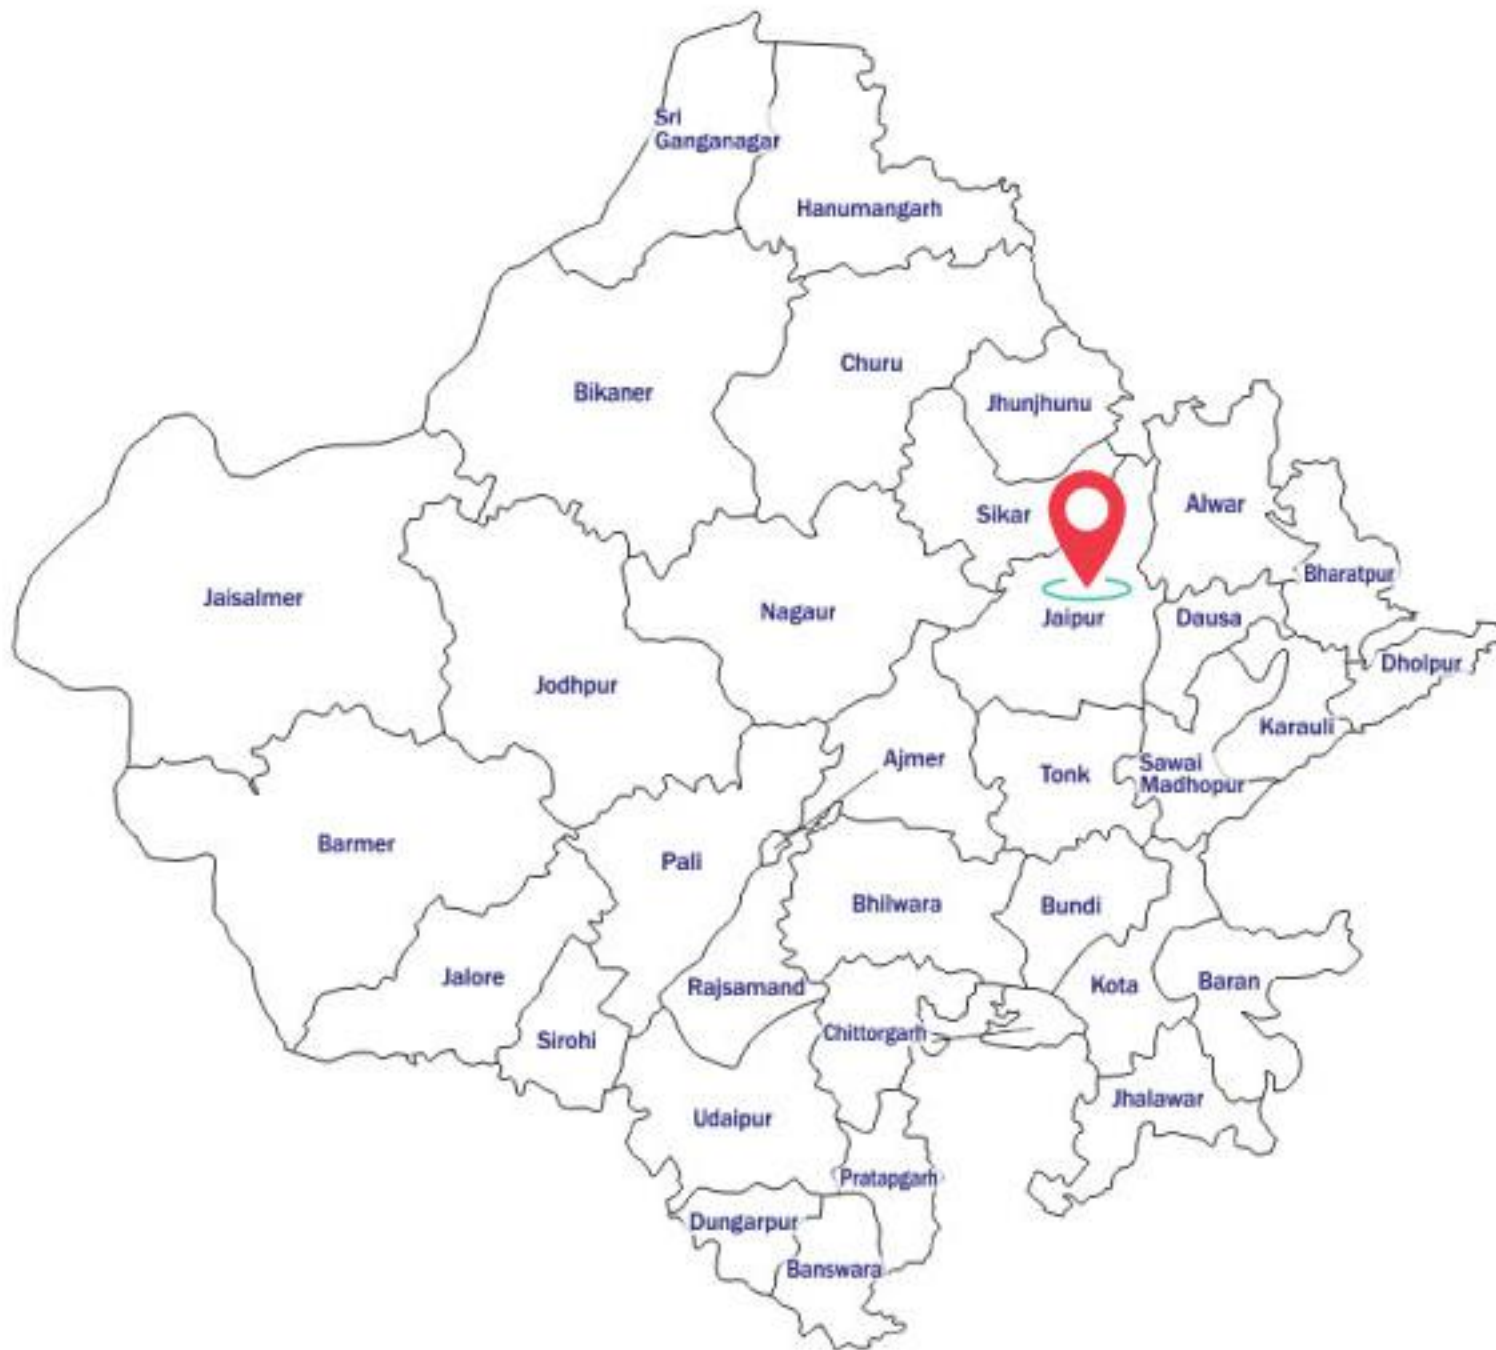

Our center is to increase our environmental responsibilities, concentrating and bringing change for a reasonable future. All things considered, the climate is crucial for us and we have made taken steps for its rebuilding.

We focus on how all our business activities impact our surroundings. Across all stages of the product life cycle, we try to reduce the environmental impact, create social capital and achieve cost-efficiency.

We believe in balancing the need for operational efficiency in production and service systems with environmental commitment & social fairness. Our assets are with the aim of valuing our larger communities and the environment, be it procurement of raw materials, to **ensure sustainable manufacturing** facilities.

Our plants are ISO confirmed & are installed with solar panels. Water Harvesting System is executed at our plants that recharges groundwater with rainwater. Ultimately, the climate is crucial for us & we have made determined steps for its restoration.
